Graz, 02.07.2014

ref: Joint APHAR/BPS Meeting, Graz 2015: Invitation as Guest Society

Dear Professor Gojković-Bukarica, *Dear Ljiljana!*

Following to my e-mail from a while ago, I would like to give you an update on the planning of the Joint Meeting of the Austrian and British Pharmacological Societies, Graz 2015.

We have recently had a meeting of the joint organisers and have concluded that based on the very positive experiences from our last APHAR symposium in Graz in 2012, we would again like to officially invite the

Serbian Pharmacological Society SFD

to participate in our meeting.

The meeting will be held in Graz, Austria, in September 2015. Members of your society and their students are cordially invited to actively participate. Members of your society will be able to register at the member rate (which is less than the full rate for non-members), and students (with confirmation by the respective pharmacology department) may participate at the student registration rate.

In addition to the usual scientific program composed of oral communications and posters submitted by members of the organising and guest societies, we plan to organise one of the BPS Advanced Educational Workshops in Graz (the first time that such a workshop would be organised outside the UK). Although places in this workshop naturally will be limited, advanced students from all participating societies shall have the same chance to take part in this activity.

On behalf of both APHAR and BPS I would be very happy if your society would accept our invitation.

Please don't hesitate to contact me in case you need any further informations.

Looking forward to your reply

Yours sincerely

Thomas Griesbacher
President, APHAR
