

SERBIAN PHARMACOLOGICAL SOCIETY

Serbian Pharmacological Society is an association of scientists and experts researching on drug problems from different aspects. The initial core of the Company consisted of pharmacologists who worked for Medical, Dental, Veterinary and Pharmaceutical Schools at the University of Belgrade, as well as those who worked at the Military Medical Academy.

Today, in addition to basic Pharmacology, members of the Society and clinical pharmacologists, associates from pharmaceutical companies, pharmacists, biologists, chemists, physiologists, patophysiologicalists et al. Within the Society, today we find Section of Clinical Pharmacology, a very successful team of clinicians working on drug testing.

INSTITUTIONS

- INSTITUTE OF PHARMACOLOGY, CLINICAL PHARMACOLOGY AND TOXICOLOGY, FACULTY OF MEDICINE, UNIVERSITY OF BELGRADE
- DEPARTMENT OF PHARMACOLOGY, TOXICOLOGY AND CLINICAL PHARMACOLOGY OF NOVI SAD
- DEPARTMENT OF PHARMACOLOGY KRAGUJEVAC
- DEPARTMENT OF PHARMACOLOGY AND TOXICOLOGY, VETERINARY FACULTY IN BELGRADE
- PHARMACOLOGICAL INSTITUTE, FACULTY OF DENTISTRY IN BELGRADE
- INSTITUTE FOR PHARMACEUTICAL PHARMACOLOGY FACULTY IN BELGRADE

Members of the Institute of Clinical Pharmacology, Pharmacology and Toxicology at the very beginning did not have their own association. Namely, they were, from 1951. to 1978. members of the Serbian Society of Physiologists (DFS), as well as sections of the Alliance of Societies of Physiologists of Yugoslavia - SDFJ (former Yugoslav Physiological association, the Yugoslav society Physiologus - JDF). Since 1978, members of our Institute of Pharmacology become members of the Association of Pharmacologists of Serbia, as well as a section of Alliance of Societies of Physiologists of Yugoslavia. At the time of formation the first president was Prof. Varagić, and then, following prof. Bogdan Boskovic (MMA), prof. Milovan Krstić. Under the leadership of prof. Krstic, otherwise a very successful researcher, the Society has remained

together during the nineties and continued fruitful scientific activity, international cooperation, and reorganization (the establishment of the Section on Clinical Pharmacology). The next president of the Society becomes prof. Dr. Ranka Samardžić. She was acting duties in the period since 1998. to 2002. year. From 2002 to 2005. yr. President of the society was prof. dr. Kornelija Švajcer-Đaković, and from 2005-2008 prof. Dubravko Bokonjić.

Current president of the company's prof. dr. Ljiljana Gojkovic-Bukarica, and the seat of the company is still in Belgrade, in the premises of our institute. Society has more than 100 members.

SECTION OF CLINICAL PHARMACOLOGY

Section of Clinical Pharmacology was established in 1994. The founder and the first president was prof. dr. Tomislav Kažić. Presidents after him were prof. dr. Milan Stanulović, prof. dr. Miloš Stojiljković, and the current president of the section is prof. dr. Ana Sabo. The Section is a member of the European Association for Clinical Pharmacology and Therapy (EACPT). Section has more than 100 members.
